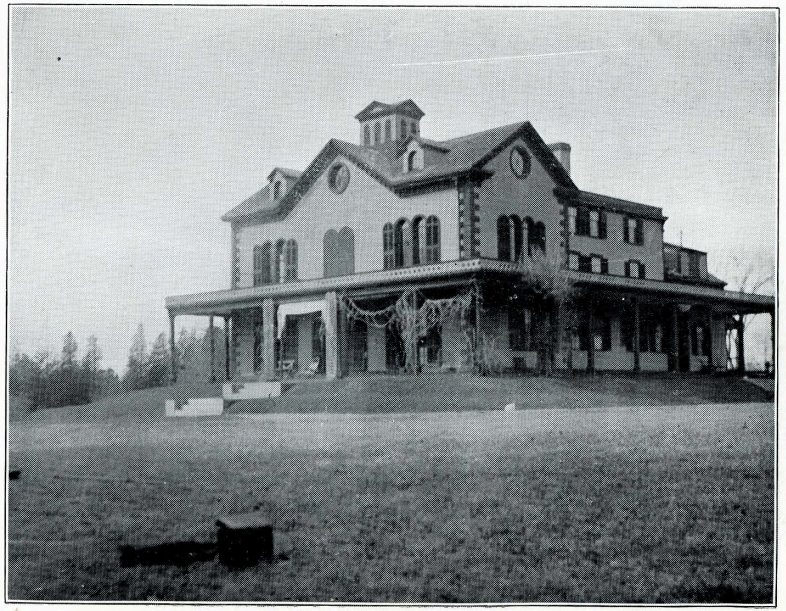
The Residence. The residence containing twenty-five rooms is built on a double terrace and has a southern exposure. The broad piazzas are a feature of the institution not to be overlooked. The heating, plumbing and water supply are excellent.



THE SOUTHEAST EXPOSURE WITH WIDE VERANDAS

The roads in the vicinity are excellent, and ample opportunities are given patients for pleasant drives. There are three mails daily. The patients can avail themselves of the facilities of the nearby city, and yet enjoy the quietness and seclusion of the country.

Patients. Twenty patients can be accommodated. Any case, either sex, not contagious or insane, admitted. Elderly people find good care and home comforts at Pine Lawn. Persons in need of rest and quiet — sufferers of insomnia, neurasthenia,
